What standard do we choose when it comes to the unborn?

By Staff Writer

Life and Death — Montana CI-128 the “Right to Abortion Initiative”

Truth is the standard by which we all were created to live by; yet the real truth is a much-debated topic. Why? Because TRUTH in the culture of our Nation has become more of an arena of opinion, sounding like, “Well that’s your truth, it’s not mine!”

Although that may sound unbiased, non-racist and accepting, opinions operate in the bounds of a color called grey, because real truth is pure light. Why? Because truth is truth! Real truth can’t be based on opinion. What’s right is right, even when no one is doing it and what’s wrong is wrong, even when everybody is doing it! (That’s why only eight people got on the ark.)

Truth has nothing to do with opinions or even feelings; if you don’t feel like its true... it doesn’t change the fact that it is true. Unfortunately, much of the sum of our lives are decided by the culture we live in. Therefore, be very zealous about what culture you want. Because the truth is, you **will have** a culture no matter what. Culture is decided on what your truth is... and choosing the Absolute TRUTH is most important! *Proverbs 14:34... Righteousness exalts a nation, But sin is a reproach to any people.*

To say this proverb isn’t true, is to lie to yourself. Why? It would mean you think that our America is still great and that it is NOT a reproach unto itself and to the other Nations of the World! (BTW... “Reproach” is defined as shame, disgrace and something which brings rebuke on a person or a people.)

Cultural impact is a huge force on how we live decade by decade. Take for instance, what is now happening on much of the continent of Africa (taken from Wikipedia 2024): “Lesbian, gay, bisexual, and transgender (LGBT) rights in Africa are generally poor in comparison to

Vote NO on MT CI-128

the Americas, Western Europe and Oceania. As of June 2024, homosexuality is outlawed in 30 out of the 54 African states recognized by the United Nations or African Union.” Why is that the case? Because the truth is being made clear in those 30 states. And the truth is, that a sexual lifestyle outside of the intended one God created a man and woman to be in, via marriage, leads to all kinds of unprofitable results. The reader should go to the link shown here, because some of the unprofitable results being alluding to, shouldn’t be spoken of openly in this article. I will use the last line of the report though, “From the standpoints of individual health, public health and social order, participating in homosexual activity could be viewed as dangerous to society and incompatible with full health.”

(The National Library of Medicine, June 1989 - <https://pubmed.ncbi.nlm.nih.gov/2762461/>)

So, in a Nation where same sex marriages have been legalized and the reported factual outcomes of that lifestyle are unprofitable for, “individual health, public health and social order;” then what can be the results of legalized abortion?

Here’s what just one report shows: “future childbearing and pregnancy outcomes (e.g., secondary infertility; ectopic pregnancy; spontaneous abortion and stillbirth; complications of pregnancy; and preterm birth, small for gestational age, and low birthweight); risk of breast cancer; mental health disorders; and premature death.”

(National Library of Medicine; web address... <https://www.ncbi.nlm.nih.gov/books/NBK507237/>)

Doesn’t that list remind you of all those pharmaceutical commercials we see on TV? And we just laugh at the multitude of listed “side effects,” while continuing to take the prescribed poisons.

If you don’t know the TRUTH, where can pure truth be found? It’s in the Bible; that’s God’s word. It’s not my opinion. It’s just the truth. And anyone who lives by His truth [truly does live by it] then they will be a witness to the Truth as a person of fact, or an “eyewitness.” If you don’t believe that, it’s ok, but to argue with me about God’s TRUTH is unprofitable for you, because what you as the reader must do, is to take up your cause with the Author of TRUTH... God Almighty, the Creator of all things. Argue your case with God... it’s up to Him to defend His truth.

Whether the reader believes it or not, there **is** a source for TRUTH, because truth is truth and it has to start somewhere. The truth is that gravity can hurt you if you jump off a cliff; yet no one can see gravity or feel it. We know that outer space has no oxygen and earth does; yet have you ever seen oxygen? Truth, therefore, comes from the source which made those things we cannot define, see or even feel. And because we have no idea how things were actually created, we each must come to a faith in the actual, absolute TRUTH. (Do you know which came first, “the seed or the apple tree?” Let alone ALL the

other kinds of trees on this planet!) The same is true about life. Where does it come from? All life? The life of a person, a puppy or kitty? Where does the breath of that life initiate and Who made that breath of life? The reason people have become so jaded to life is that when we as a culture don’t believe in the Creator, we fall into a culturally driven opinion like, “Get rid of spare dogs and spare cats; and get rid of spare kids before their born.” So, where does it stop? Get rid of spare parents, grandparents, unproductive people, the handicap? Where does it stop?

Just as you don’t understand what the life-breath does in the fetus inside a pregnant woman’s womb, so you can’t understand the work of God, who makes everything happen.
— Ecclesiastes 11:5 CEB

Did you know that nowhere in MT CI-128, the “Right to Abortion Initiative,” is the terminology used “baby or unborn.” That’s a way of perpetuating the lie and keeping it cold and matter of fact. But it does use the phrase “fetal viability.” So what is a fetus?

Do your own internet search. The engines I used, had the first 9 sites answering in ways that it said nothing about a fetus being a “baby.” But common sense says that the fetus in the womb of a woman, is a baby. No one EVER walks up to a woman with a big belly, knowing she’s pregnant and asks, “OOOHH... Are you gonna have a donkey?”

So back to this... “Truth is still truth even when no one feels like it is and no one is living by it.” A lie is still a lie, even when the majority is doing it! Living a lie instead of the TRUTH, well is that called abortion? To abort something is, “To terminate (an undertaking or procedure) before implementation or completion. (Dictionary.com) Sadly, when you look to the internet for a definition on the word abort, 9 of the first10 sites loaded in the search all talk about

The Crime of the Century

By "The Lone Gunman"

In our previous edition of Truth Be Told News, we reported on the dangerous effects likely caused by the Covid-19 vaccines, and the need for accountability against such transgressions.

Statistical research from seasoned medical professionals like Dr. Robert Malone, experts like Karen Kingston, as well as other whistle-blowers have come forward in the years following 2019, all of them brave enough to defy establishment "wisdom" while simultaneously risking their lives in the process.

Such individuals willing to put it all on the line in the pursuit of truth should be commended. What did "The-Powers-Who-Shouldn't-Be" expect? When you inject enough of the population with gene-altering chemicals that shortens their lifespans and ruins their quality of life, you inevitably get a large number of angry, injured people who have nothing left to lose.

Sometimes in life, you have to lose to win.

Even beyond Covid, It appears the government – at all levels – is not interested in fulfilling the will of the people. It has become a self-serving fraternity, full of war mongering pedophiles that crave money and power above all else. They could care less about the suffering and tragedy of innocent people. Which is one of many reasons why the so-called experts who touted the Covid vaccine as "safe and effective" will never admit to any wrongdoing. They are beyond any form of reconciliation.

But even as calls for Nuremberg-style tribunals grow, so too does frustration among the American people. It begs the questions: Where is the accountability? When did justice turn into "just-us"? How long have we been under this system of "rules for thee and not for me?" **Pascal Najadi has some answers worth considering. Buckle up before going down this rabbit hole.**

Mr. Najadi is a retired Swiss investor, filmmaker, and author who offers us his perspective on what's actually going on behind the scenes. He spoke to Huffmag.com earlier this year about Operation Storm, and for those of us demanding accountability, it provides a silver lining of hope.

In objective fairness, detractors and naysayers will cry foul to his claims. That it is yet another fanciful hoax the conspiracy theorists are hopelessly addicted to. But truth be told, NONE of us really know what's going on. Sure, we all "feel" something happening around the world, but who's to say that's not the graphene in your bloodstream interacting with the 5G wireless networks?

Aristotle famously wrote: "It is the mark of an educated mind to be able to entertain a thought without accepting it". So, for the sake entertaining and the pursuit of truth, let the tin foil hats come off, and put your thinking caps on. What does Najadi have to say about the Crime of the Century?

Via Huffmag.com: Najadi begins with his own experiences in Swiss court, "As a victim of three Pfizer bioweapon mRNA shots... I took decisive action... I approached the Swiss police and filed criminal charges against a health minister whom I believed to be acting outside the bounds of the law... Regrettably, the responses from the courts [was] that force was not employed and that I should have educated myself about the potential dangers.

It sounds eerily similar to the same lack of justice happening in the United States. He continues:

"...In instances where the federal civil courts and their judges prove to be unreliable in upholding the constitution due to a series of failures, alternative measures must be taken to rectify such catastrophic circumstances in the best interest of [humanity], the sovereign, and the countless victims who have suffered injury or loss of life."

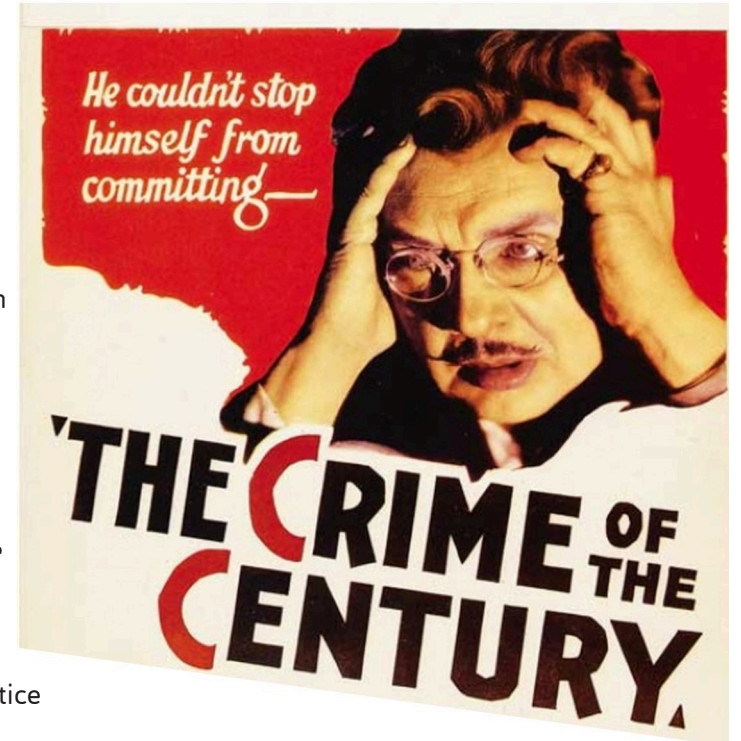

Again, this isn't anything new if you're paying attention. But what "alternative measures" does he suggest is coming? As it turns out, Operation Storm may be part of a larger military operation taking place across the globe:

"A decision was made to dismantle the global deep state through a strategic alliance known as the War Generals Alliance, consisting of 33 nations' militaries operating under the leadership of the US Space Force, commanded by CIC and wartime President Donald J. Trump. This operation was initiated following a well-coordinated Helsinki Summit in the summer of 2018, where President Trump and President Putin of the Russian Federation jointly agreed to proceed."

Is this one reason the media is so insistent on vilifying Trump and Putin as allies?

Najadi elaborates:

"...Fear not the machinations of rogue governments or any other adversarial forces... Their demise is imminent, and the year that shall witness their downfall is 2024. All fake democracies, traitor politicians, fake political parties and systems will be replaced by US military rule and justice. All perpetrators and traitors are trapped now and as President Trump said: 'I caught them all.' Well, I can confirm his astute statement as 100 % truth."

Credit for Artwork: Movie Poster / Pop Culture Graphics

It echoes many of the main themes of the "Q" operation that started posting on the deep web shortly before 2018. With only a handful of weeks still left in the year, it remains to be seen if Najadi's claims for a 2024 deep-state reckoning will prove true, or if we'll even hear about it. It's not unreasonable to find such claims dubious, especially amid today's media ecosystem of endless fact-checking, fake news, conspiracy theories, and censorship.

So, we continue watching; verifying what we do know in the meantime. All while establishment hacks and traitors face down the growing reality of a rapidly awakening populace. It can be tempting to demand vengeance in the form of justice when faced with such crimes against humanity. But let's not forget that calling for such actions also invites accountability into our own lives as well. None of us are truly innocent. We all fall short.

We all fall short.

The humility needed in recognizing that fact could very well be the main thing that sets us apart from the globalist puppets who still refuse to accept the reality that our current world order is changing for the better.

**Remember folks...
the truth always wins.**

"UNBORN"*(Continued from Page One)*

“abort” in the context of getting rid of fetuses (babies). In fact, those sites don't reference us as humans but rather mammals. Again, so much of our lives are determined by culture.

Can NASA even use the word “abort” anymore if a mission is failing?

The Body of Christ is to be held accountable for this crisis in our nation. We have NOT taught the real TRUTH, but rather acquiesced to culture by allowing it to be a personal choice. Which is just a culturally correct way of saying, “I'm using my own self-righteousness to do what I want.” Thinking that we each have the “right to give life or to end it” is horrific. In an actual court of law, taking life is called murder.

And if you think you have a right to your own life and that it's yours to live however you want, then give God's breath of life back to Him! Yes, you read that correctly. Since you don't own the breath in your own lungs, give it back to the One who made it!

When you die, can you take up your own life again and rise from the dead? Well, if you can't do that, then what makes you think you own your own life to start with? Now for those who become pregnant, how then is it right for you to take the breath of life out of the unborn; that which is conceived in you that you couldn't create?

By legitimizing your choice, you are actually saying that your breath of life is more important than the one who is growing in you. But if you can't give yourself the breath of life to start with, then why do you believe you have the RIGHT to take the breath of life from that, which you had no power to create? (What if you had been the one who was aborted? Why don't people think of that?)

And this is the core of the issue at hand, “When does life begin?” *Science has proven that a microscopic flash of light, or zinc spark, occurs when a human egg is fertilized. (CBC, Science Alert, US News & World Report)* The breath of life, and the soul, which ONLY God the Creator can give, begins in the moment of conception. God knew you, even before you were knit and put together in your mothers' womb. (Psalm 139:13-17; Jeremiah 1:5)

Back to the first thought about society. Those who are driving our culture have taken license to put their own opinions, via propaganda, into the very soul of

America. Montana CI-128 is telling you that it's a woman's right; it's her body and she has a right, along with her doctor, to choose to abort (to murder her child). **Vote No!** Why? Because the absolute truth is, “Abortion is wrong.”

Truth is truth, even if nobody wants to submit to it. You know it's wrong in your heart. However, our hearts get seared with the red-hot iron of the lies of our culture.

When we refuse to choose the One who is TRUTH, our Creator, life is then being lived from the prospective of a lie. People will fight out of their own self-righteousness, to keep doing what's wrong, but **“What's wrong is wrong, even when everybody is doing it!”**

What this comes down to is that people want to believe in their own truth and call it right. Why? Because rebellion against God rules the earth right now...

“I want to do, what I want to do!”

When I was younger and not living for my Creator, the God of the known Universe and the Savior of the world, I did whatever I wanted. It included drinking without limits, carousing, gossiping, lying about many things and even hurting others to get what I wanted, but the most damaging thing was having sex outside of marriage. Seemed ok at the time because **everyone was doing it**, but actually it was all about self-gratification in the moment... which is rooted in the truth that I didn't really care about the consequences. (Those impacting others and unto myself.)

That's what the Montana CI-128 Initiative is all about. The TRUTH is, that some Montanans want to legalize their own choice, which only reveals that they truly don't care about anybody else but themselves, which is the epitome of self-centeredness; because they are willing to kill for it. God still calls it murder, even if you think it's you're right. *“Thou shall not commit murder.” -- Exodus 20:13*

Fools multiply when wise men are silent.

Following a culture of decision based on emotions and the fervent cry of, **“it's my right”** is a sure-fire way of opening the door to initiatives that have no Godly understanding and wisdom in them. Yes, human beings need regulations, but there is only one blessed way for “We the People” to be safely regulated into goodness and mercy; seeking first the Kingdom of God and His righteousness!

God is watching us Montana...

Nothing is concealed that He doesn't see! **Vote NO on CI-128** and represent His Righteousness and His TRUTH! Which is absolute.

Who Do You FEAR?

If you Fear Man, that is OPPRESSIVE and DEPRESSIVE...

If you fear THE GOVERNMENT... that ends in bondage and control...

If you fear God, He promises peace, wisdom, favor, blessing, and...

The fear of man is being worried about how you perform; what others think about you; and how you look to others by what you own.

**I WANT YOU FOR MY OWN PLANS!**

Government we are supposed to submit to, according to Romans 13:3, is one that is NOT a "terror unto good works." Currently, our government is calling what is good, bad... and what is bad, good. Terror upon righteousness is rampant. So when does civil disobedience need to happen?

Fear of God doesn't mean we are supposed to be afraid of Him. On the contrary. To have a healthy, reverential "fear" of God is to do as He says because you know that He has your best interests in His heart. And then, He can bless you. A bad father reinforces bad behavior. How many times have each of us seen a parent give their child what they wanted, *after* they threw themselves down on the floor in public? A good Father doesn't reinforce bad behavior by blessing His children when they keep practicing things that will hurt themselves and which are against His will.

For I know the plans that I have for you, says the Lord, plans for peace and not for evil, to give you a future and a hope. (Jer 29:11)

MONTANA VOTING RECOMMENDATIONS

Important Election Races!!!

Governor: Greg Gianforte

CORRUPTION... COLLUSION... AND ABUSE OF POWER!

DO YOU KNOW THE REAL STORY?

On the afternoon of October 21, 2024 just as this paper was going to print, the Montana AG office was forced to scrap a project that seemed designed to water down our gun laws. The office dismissed the case of missionary Jesse Boyd.

The condensed version of the story is that in November of 2022, Boyd and his family were walking on a road in Cameron Montana. This walk was part of a much larger endeavor: to walk 8,000+ miles across America with a large wooden cross to share a simple message; we have a spiritual problem here in America.

That cold and snowy day, a man named Brad Terrell objected to the cross and proceeded to threaten and then violently attack Jesse. When the Madison County police arrived, instead of arresting Terrell, they arrested Jesse and his family charging them with assault with a deadly weapon. Between the threatening and the attacking, Jesse had pulled his gun to protect himself and his family and then prematurely put it away.

For two grueling years, Montana AG Austin Knudsen and Acting Assistant AG Thorin Geist have been trying to pick apart Montana Code 45-3-100, better known as the stand your ground law, by saying that Jesse didn't have the right to point the gun at Terrell. Fortunately, Judge Luke Berger of the 5th District Court issued a statement saying that the law is clear and he will not be part of any effort to rewrite this law from the bench. In an effort to not waste further resources on a trial, Judge Berger had given the AG office until Tuesday, October 22, 2024 to dismiss the case. And that, fortunately for Jesse and all Montanans, is what happened.

Much more of this story needs to be told and to that effect, this will be done.

But for now, Jesse Boyd, his family, and his new Montana friends have committed to preserve our Constitutional rights; breathing a collective sigh of relief that the malicious prosecution track of this story is over.

Read the full story in our next addition!

WE ARE LIVING SHORTER AND DYING LONGER

By Dr. Bruce Grandstaff of Ideal Health.

"MAKE AMERICA HEALTHY AGAIN"

Dr. Ray Strang, author of *Death by Prescription* stated "We are living shorter and dying longer." This is sadly true for almost everyone in the United States and the industrialized world. But this is only possible if you are kept ignorant or are (when informed as to why this is occurring) are too complacent or too comfortable with the status quo that you are not about to change anything.

Ayn Rand, author of *Atlas Shrugged*, stated this "It is a moral sin to participate in your own self destruction".

I would like to add that one of the big reasons why we are living shorter and dying longer is something that you have control of and are capable of fixing. So I would state "Every bite you eat or drink you take, is moving you closer to illness or health. There is no neutral ground." A friend and fellow doctor liked to say to his patients, "It's your body, it's your health, it's your choice". This article is about choices.

Thomas Carlyle, a popular Scottish essayist, historian and philosopher (1795-1881) said "If you have health you have hope, if you have hope you have everything".

Robert F. Kennedy, in his recent speech announcing his withdrawal from this year's presidential race, said the following extremely important things. (His entire speech can be downloaded and I would advise everyone to read it in its entirety.) These are his key statements about our health.

"As you know, I left that party (Democrats) in October because it had departed so dramatically from the core values that I grew up with. It had become the party of war, censorship, corruption, Big Pharma, big tech, big Ag and big money. When it abandoned democracy by canceling the primary to conceal the cognitive decline of the sitting president, I ran as an independent."

"I'm here to tell you that I will leverage your tremendous accomplishments to serve the ideas that we share, the ideas of peace, of prosperity, of freedom, of health, all the ideals that motivated my campaign."

"Furthermore, our polling consistently showed that by staying on the ballot (in) the battleground states, I would likely hand over to the Democrats with whom I disagree on the most existential issues, censorship, war, and chronic disease."

"Not only did we do the impossible by collecting a million signatures, we changed the national political

conversation forever. Chronic disease, free speech, government corruption, breaking our addiction to war, moved to the center of politics."

"I feel a moral obligation to use this opportunity to save millions of American children above all things. In case, some of you don't realize how dire the condition is (of) our children's health and chronic disease in general, I urge you to view Tucker Carlson's interview with Calley Means and his sister, Dr. Casey Means, who is the top graduate of her class at Stanford Medical School."

"This is an issue that affects all of us far more directly and urgently than any culture war issue and all other issues that we obsess on and that are tearing apart our country, this is the most important issue, therefore it has the potential to bring us together."

"So let me share a little bit about why I believe it's so urgent today. We spend more on health care than any country on Earth, twice what they pay in Europe, and yet we have the worst health outcomes of any nation (in) the world."

"We're about 79th (in) health outcomes behind Costa Rica, Nicaragua and Mongolia and other countries. Nobody has a chronic disease burden like we have. And during (the) Covid epidemic, we had the highest body count of any country in the world. We had 16% of the Covid deaths, and we only have 4.2% of the world's population. And the CDC says that's because we are the sickest people on Earth."

"We have the highest chronic disease rate on earth, and the average American who died (from) Covid had 3.8 chronic diseases. So these people had immune system collapse, had mitochondrial dysfunction, and no other country has anything like this. Two thirds of American adults and children suffer from chronic health issues. 50 years ago that number was less than 1%."

"74% of Americans are now overweight or obese, and 50% of our children are."

"Half of Americans have pre-diabetes or type two diabetes. When my uncle was president, I was a boy, juvenile diabetes was effectively non-existent!"

"A typical pediatrician would see one case of diabetes during his entire career, a 40 or 50 year career. Today, one out of every 3 kids who walks through his office door is diabetic or pre-diabetic, and the mitochondrial disorder caused diabetes, also causing Alzheimer's, which is now classified as diabetes, and it's (costing) this country more than our military budget."

"Every year there's been an explosion of neurological illnesses that I never saw as a kid, ADD, ADHD, speech delay, language delay, Tourette's Syndrome, narcolepsy, ASD, Asperger's, Autism. In the year 2000, the Autism rate was one in 1,500. Now, autism rates in kids are one in 36, according to CDC; nationally, nobody's talking about this."

One in every 22 kids in California has autism, and this is a crisis that 77% of our kids are too disabled to serve in the United States military. What is happening to our country, and why isn't this in the headlines every single day?"

"There's nobody else in the world that is experiencing this. This is only happening in America."

In my generation (of) 70 year old men, the autism rates (were) about one in 10,000. In my kids' generation, one in 34. I'll repeat, in California, one in 22. Why are we letting this happen? Why are we allowing this to happen to our children?"

"About 18% of American teens now have fatty liver disease. That's like one out of five. That disease, when I was a kid, only affected late-stage alcoholics who were elderly. Cancer rates are skyrocketing, and (in) the young and the old (its) up 79%."

"One in four American women is on antidepressant medication. 40% of teens have a mental health diagnosis, and 15% of high schoolers are on Adderall, and half a million children on SSRIs (selective serotonin reuptake inhibitors)."

"So what's causing this suffering? I'll name two culprits, first, and the worst is ultra processed food. About 70% of American children's diet is ultra-processed, that means industrially manufactured in a factory. These foods consist primarily of processed sugar, ultra-processed grains, and seed oils."

"Laboratory scientists form(ing) many of them (ultra-processed foods) formerly worked for the cigarette industry, which purchased all the big food companies in the 1970's and 80's. (They) deployed 1000s of scientists to figure out chemicals, new chemicals to make food more addictive. And these ingredients didn't exist 100 years ago. Humans aren't biologically adapted to eat them."

"Hundreds of these chemicals are now banned in Europe, but (are) ubiquitous in American processed foods. The second culprit is toxic chemicals in our food, our medicine (and) in our environment. Pesticides, food additives, pharmaceutical drugs and toxic waste permeate every cell of our bodies."

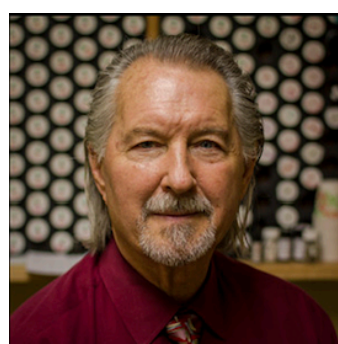

"These assaults on our children's cells and hormones are unrelenting and (to) name just one problem, many of these chemicals increase estrogen. Because young children are ingesting so many of these hormone disruptors, America's puberty rate is now occurring at age 10-13, which is six years earlier than girls were reaching puberty in 1900. Our country has the earliest puberty rates of any continent on the Earth."

"Breast cancer is also estrogen driven, and now strikes one in eight women. We are mass poisoning all of our children and adults."

"... Minority communities suffer disproportionately. People who worry about DEI or about, you know, bigotry of any kind, this dwarfs anything. We are systematically poisoning minorities across this country."

"Industry lobbyists have made sure that most of the food stamp lunch programs, about 70% of food stamps and 70 or 77% of school lunches are processed foods. There's no vegetables. There's nothing that you would want to eat. We are just poisoning the poorest citizens, and that's why they have the highest chronic disease burden of anybody, any demographic, in our country, and the highest in the world."

"The True Reality of Life on Earth"

We ^{Inspire} the People

By Don Evans

Kingdom vs. Religion... Many people wonder why Jesus came to earth... these people don't yet know Him. Many others think they know exactly why He came... these would be the religious people who go to a building they call a "church." The majority of those who build a building and label it "church," do it to marry the living, bury the dead and preach to the head; even maybe sprinkle kids and baptize adults in water. But, their main focus is trying to get people saved to go to heaven... that's religion.

The Christ (which means Anointed King), came to give His people authority and power to bring heaven to earth, destroy the works of the Devil and reign on earth (as it is in heaven) by Him, through Him and for Him... that's a Kingdom!

Want to know why Jesus came to earth? The answer is NOT found in man's opinion. It is found in Jesus' own words: *"When it was day He departed and went into a remote place. And searching for Him, the people came to Him and tried to prevent Him from leaving them. But He said to them, 'I must preach the kingdom of God to other cities also, for this is why I was sent.'" (Luke 4:42-43)*

Now that we know why Jesus came, do you want to know what He preached? We know He never preached about himself (John 12:49). He never preached the gospel of the Christ, the gospel of the blood, the gospel of being born again or baptism, no not even the gospel of the resurrection. — Religion does that.

Jesus didn't even preach about being the door into heaven (John 14:6). Now, *please...* try and hear me and what I'm saying. He **did speak** about those things mentioned above, but he NEVER made them the focus and reason for His coming! He spent 3.5 years in close quarters with 11 men and 1 traitor, teaching them about ONE thing... the Kingdom! *"Fear not, little flock, for it is your Father's good pleasure to give you the kingdom" (Luke 12:32)*

The Kingdom of God was His focus and the **ONLY** message He preached. *23 Jesus went throughout all Galilee teaching in their synagogues, preaching the gospel of the kingdom, and healing all kinds of sickness and all sorts of diseases among the people. 24 His fame went throughout all Syria. And they brought to Him all sick people who were taken with various diseases and tormented with pain, those who were possessed with demons, those who had seizures, and those who had paralysis, and He healed them. (Matthew 4:23-24)*

For many a Millenia, religion has made His coming about ALL KINDS of things. Even the religion of His own people missed His coming; why He came, and what He accomplished in just three words... "It is finished." Here's the simplicity of it all... Jesus came to give us back what Adam and Eve lost... Dominion on earth! That's why Jesus preached the "gospel of the Kingdom."

Let's call it "**Jesus math.**" And His math always has a solution!

The equation looks like this: *Jesus came to preach the Kingdom and back it up with the power of a King by providing proof of His Kingdom (Mt 4:23-25) + He needed a body to get some blood, in order to shed it and cleanse our vessels + He died, so He could, in spiritual form, go to hell and take the keys of dominion back from Satan + be raised from dead to prove His message was and is TRUE + make a way for the Governor of the Kingdom of God to live in all who would believe (Holy Spirit) + give back the keys to the Kingdom to ALL those who were redeemed = the "Gospel of the Kingdom."* — That's THE GOOD NEWS!

Finally, if you want proof of all of this being true, then take a look at Christianity (the religion) and look at what it has done over the centuries. Religion makes members... Kingdom makes citizens. Religion puts people in bondage with rules and regulations... Kingdom sets people free. Religion makes denominations and the fruit of that is "di-vision"... Kingdom makes "Common-unity" with singular vision — and Kingdom community has ONLY been seen in the book of Acts. Religion has NEVER produced Kingdom community! Just go read about the rich young ruler in the Bible... Religion says, *"I've done everything right for God."* But the religious aren't willing to give up everything to gain the Kingdom of God. (Matthew 13... "The Kingdom of Heaven is like.")

The gospel of the Kingdom IS the one thing Jesus preached. He taught about ALL that is in it. And when you do that, people will find the door! *"I am the way the truth and the life. No one comes to the Father except through me."* Jesus is the DOOR into the Kingdom.

What good news have you been sharing?

Did you know that when the gospel of the Kingdom is preached, which is the correct message, it opens the door for Jesus' coming? *Because iniquity will abound, the love of many will grow cold. 13 But he who endures to the end shall be saved. 14 And this gospel of the kingdom will be preached throughout the world as a testimony to all nations, and then the end will come. (Matthew 24:12-14)*

God will confirm NO OTHER MESSAGE... ONLY the gospel of the Kingdom will bring the signs and wonders you may have been seeking. Those miraculous signs of life: healing, casting out demons and raising the dead, only come by ONE message... His Gospel of the Kingdom! Then, wherever the Lord has planted you, people will hear and be convicted of the truth found in the Gospel of the Kingdom and people will also see confirming truths of His Kingdom Gospel! And with that One message, some will actually become disciples of Christ. At that point the TRUE Ekklesia (the Church) will rise and God alone will create the manifestation of the fruit found in the Acts church!

Be encouraged Beloved! Just keep the right focus. Because with the right alignment, you can become your assignment! Just think of how Moses saw himself, and yet God did mighty works through Him... *But Jesus looked at them and said, "With men this is impossible, but with God all things are possible." (Matthew 19:26)*

- Religion focuses on getting people into heaven...
Kingdom focuses on bringing Heaven HERE! (Mt 6:10)
- Religion focuses on man-made rules and regulations...
The King and His Kingdom, gives you purpose and vision.
- Religion keeps people in bondage and chasing after things...
His Kingdom has everything in it; *seek His Kingdom and righteousness first*, things you need will given to you. (Mt 6:33)
- The Kingdom is the catalyst to affect the whole world; not just one church or one denomination! (Mt 16:18)

We ^{LOVE} the People

By Dr. Bruce Grandstaff
(Continued from page 5)

"The same food industry lobbied to make sure that nearly all agricultural subsidies owed to commodity crops that are the feed-stock of the processed food industry. These policies are destroying small farms, and they're destroying our soil. We give about, I think, eight times as much in subsidies to tobacco as we do to fruits and vegetables."

"It makes no sense if we want a healthy country. The good news is that we can change all this. We can change it very quickly. America can get healthy again. To do that, we need to do three things."

"First, we need to root out the corruption in our health agencies. Second, we need to change incentives in our health care system. And third, we need to inspire Americans to get healthy again."

"80% of NIH grants go to people who have conflicts of interest. Joe Biden just appointed a new panel to NIH to decide the food recommendations. And they're all people who are from the industry. They're deciding what Americans you know here is healthy and the recommendations on the food pyramid... and what goes to our school lunch programs... the Swiss program, the Food Stamp programs."

"They are all corrupted and conflicted individuals. These agencies - the FDA, USDA, and CDC - are all controlled by giant for-profit corporations. Seventy-five percent of the FDA funding doesn't come from taxpayers; it comes from pharma, and pharma executives, consultants, and lobbyists (who) cycle in and out of these agencies."

WARRIORS OF Worship Dare to be a Warrior!

O come, let us worship and bow down: Let us kneel before the Lord our Maker. ~ Psalm 95:6

3rd Tuesday of Every Month
10:00 am (9:45am-10am Fellowship and refreshments. Come and Enjoy!)

House of Praise
103 Westview Drive Victor, MT 58975

And... The **1st Saturday** of Every Month
Kootenai Creek Village - 43 Clubhouse Way, Stevensville MT 59870
